THIS DRAW PUTS 140,000,000 EUROS IN PRIZES AT PLAY

SPECIAL PRIZE	FRACTION	SERIES	AWARD ACCUMULATED
€19,800,000 No. 21423 FIRST PRIZE	3rd	9th	20.000.000€

INSTRUCTIONS FOR THE STALIST'S SULT

1st Check if the draw date and drawing at the top of the list match those on your bill or tenth.

2nd In each column, and only in it, are all the prizes and refunds that have corresponded to all the numbers that end with the big figure that heads it, classified into two groups: complete numbers and endings.

For example, if your number ends in 1, you should focus your attention only on the column

headed with a one. **The prizes indicated in the column "euros/ticket" are those that correspond to a ticket, that is, ten tenths.** 3rd See if the one you play appears in the column of numbers and, if so, on the right you will find the total amount of the prizes that have corresponded to the ticket accumulated, with the exception of the special ones that appear already accumulated in the box immediately preceding these instructions.

4th If your complete number is not there, you can have a prize in the group of endings. If there are four figures and your number has them equally arranged, on the right you will find the total prizes that have corresponded to all the numbers that end with those four figures.

If you do not have a four-figure completion award, or there are none, proceed in the same way with the endings of three digits, in his case with those of two and, finally, with those of one.

EXTRAORDINARY DRAW OF
VACATION

JULY 1, 2023
